Guest Speakers: SCOS Orchid Culture Experts

Subject: Repotting Skills for Six Genera

Monday, May 21, 2012 (the THIRD Monday of the month)

Our program for May 21st will be all about getting our Orchids to grow, thrive, and bloom in 2013!

We will have three of our outstanding growers to each present repotting and culture of two genus of orchids. Sharing information is how we learn to keep our plants alive. Our presenter's will be Butch Arciaga, Don Goss, and Espie Quinn.

It will also be our "Visitor's Night." First time visitors will receive a ticket for a special drawing in which they will be eligible to win a free Orchid Plant..

It is important that we start our meeting at 7pm since there is much to present in an hour +.

We also need member's to help set up the tables and chairs at 6:30 pm. We really appreciate those who help us do this.

Refreshments

Last names starting with **Q through Z** please bring refreshments.

(First Vice) President's Message

Jack Reihing, a former member of South Coast Orchid Society, passed away on April 19, 2012. Jack was active in several Orchid Societies and was one of the "old timer's" who grew wonderful plants at his Garden Grove home which he shared with Richard Wulff. Jack and Richard grew beautiful cymbidiums and were very active in the Cymbidium Society, Sunday Amateurs, and our sister society, Long Beach Amateur's until his health declined. Jack was also a Founding Member of the Newport Harbor Orchid Society. I will remember him as a very kind and generous man who shared divisions of his plants with many of us. I have several of these divisions in my collection.

We have purchased our digital projector and are ready to support presentations by our speakers who bring their visual aids on a digital device. This projector requires input from a computer (e.g., a laptop).
