

**LBAOS Sale on November 7, 2020**  
**Orchids From LBAOS March Auction and Member's Estate**

Plant Name	Comments	Picture
<b>Ansellia africana 'Garden Party'</b> HCC/AOS	4-inch pot A beautiful alba-green form of this native of Africa. Flowers are a clear, vibrant green, with a textured lip that is bright yellow. The flowers bloom along branching sprays that are erect to arching in habit. This plant is also noted for compact growth habit. Grows well outdoors with Cymbidiums, and well indoors. Cool to Intermediate. March blooming. Species from Africa.	
<b>Ansellia gigantea var. 'Nilotica'</b>	1 gal square, J&R Orchids	
<b>SVO 6935</b> <b>BLC. NEW HYBRID (Blc. Tropical Upgrade 'SVO' x Blc. Guess What 'SVO' AM/AOS)</b>  <b><u>TWO 4-INCH POTS AVAILABLE</u></b>	(2) 4-inch pot Registered Tropical Upgrade (Blc. Guess What x Lc. Tropical Sunset) blooms with 5-7 large orange-gold flowers with red lips on sturdy stems. Line breeding it back to Guess What (Blc. Waikiki Gold x Lc. Trick or Treat) will further intensify orange-gold color and increase flower count while retaining red lips and strong stems.	 x 
<b>SVO MG14</b> <b>Catt. (C. Excellent Ina x Pot. Mark Koch)</b>	4-inch pot	No pic x 
<b>SVO 6196</b> <b>Catt. Warscewiczii (C. warscewiczii 'Halo' AM/AOS x C. warscewiczii 'Michael' AM/AOS)</b>	4-inch pot 'Halo' is a strong-growing plant that produces 4-5 flowers of excellent size with nicely balanced petal shape. 'Michael' has great form, with large 7.5-inch flowers, and grows well; its roots appear to be a bit more robust. Expect good stems with 4-5 large well-shaped lavender flowers and full-formed lips with two yellow 'eyes' in the throat. A 'top' offering of this desirable species.	
<b>Cleisocentron (Clctn.) merillianum x sib</b>	2-inch pot Mount: Slab Mounted Plant Temperature: cool, intermediate to warm Lighting: Shade to Bright (indirect light, pronounced shadowing) Water Care: Moist; 3-5 waterings / week (let dry lightly between waterings)

<b>SVO 2355</b> <b>Den. (Beryl Wuth x Hilda Poxon) #2 x</b> <b>(Beryl Wuth x Hilda Poxon) #3</b>	6-inch pot, Sunset Valley Orchids These will be from dark to light purple flowers with white to dark purple lips. These are excellent growers and bloomers which make an excellent floral show.	
<b>SVO 5667</b> <b>Den. (Blushing Vista 'SVO' x Den.</b> <b>Dunokayla 'Tuyet' AM/AOS)</b>  <b><u>FIVE 4-INCH POTS AVAILABLE</u></b>	(5) 4-inch pot Blushing Vista (Gillieston Jazz x Rutherford Blushing Bride) has dark lavender flowers with some white at the base of segments. Good grower and bloomer. Dunokayla produces solid yellow chunky flowers with 20 or more blooms per stem. Impressive! Expect these to produce chunky blooms with high flower count and flower color ranging from lavender to soft yellows.	No pic x 
<b>SVO 5333</b> <b>Den. (Golden Vista 'SVO' x Den.</b> <b>Dunokayla 'Tuyet' AM/AOS)</b>  <b><u>FIVE 4-INCH POTS AVAILABLE</u></b>	(5) 4-inch pot Golden Vista (Class x Star of Gold) produces a rather large yellow flower with red markings on the edges of the segments and a white lip covered with fine red spots. Dunokayla produces solid yellow chunky flowers with 20 or more blooms per stem. Impressive! Good yellows with a few red markings, high flower count, and chunky form. Really nice.	
<b>Den. jonesii (ruppianum)</b>	1 gal in clay pot Large plant, reliable bloomer	

Plant Name	Comments	Picture
<b>SVO 6174</b> Den. (Regal Gillieston 'SVO' x Graeme Banks 'Chrissie')	4-inch pot Regal Gillieston has a superb plant habit, beautiful light-yellow flowers with blush of red and solid red lip.	 X
<b>SVO 5305</b> Den. (Regal Gillieston 'SVO' x Den. Speciosum v. curvicaule 'Daylight Moon' FCC/AOC)  <b><u>TWO 4-INCH POTS AVAILABLE</u></b>	(2) 4-inch pot Regal Gillieston has a superb plant habit, beautiful light-yellow flowers with blush of red and solid red lip. 'Daylight Moon' is the best curvicaule available, producing over 100 chunky light-yellow flowers per inflorescence. Makes for improved yellow and red flower color, good stem length and bloom count. Although Speciosum is in the immediate background, it will not add much to the plant size, as this is a recessive trait.	 X
<b>Den. Speciosum 'Buttercup'</b>	1 gal	No pic
<b>Den. Speciosum 'Esier' x 'Don Brown' CSA</b>	10-inch pot, Fred Clark, SVO	No pic
<b>Den. Speciosum species</b>	8-inch pot	No pic
<b>Den. Speciosum var. Speciosum</b>	8-inch pot	No pic
<b>Den. Speciosum Unknown</b> <b><u>TWO AVAILABLE, 4-INCH and 1 GALLON</u></b>	4-inch 1 gal	No pic
<b>Den. Spectabile x sib (species)</b>	2-inch pot The flowers are alien looking. It is a collector's orchid. It requires different care from other Dendrobiums. Unlike common Dendrobium, Spectabile will not flower without much higher levels of light. They will even take full sunlight for much of the time. A little protection from late afternoon sun will keep the leaves looking better.	 <small>Den.spectabile</small>
<b>Encyclia Unknow</b>	8-inch pot	No pic
<b>Epidendrum cinnabarinum x Epi Princess 'Yellow Bird'</b>	2 gal Epidendrum cinnabarinum (Brazil) is a robust, erect and clumping plant, resembling a large Epi. secundum, often reaching up to 4 feet.	No pic x 
<b>Epidendrum Eagle Valley 'Fiesta'</b>	2 gal	No pic
<b>Epidendrum polyanthum (species)</b>	1 gal, Andy's Orchids Impressive, long-lasting cascading plumes of flowers, amber tinted orange-to-green with cream centers. Attractive foliage reblooming even on older canes. It rapidly grows into a stately specimen. Temperature Tolerant.	
<b>Epidendrum Purple Magic</b>	1 gal	No pic

Plant Name	Comments	Picture
<b>Epidendrum radioferens</b>	1 gal, Mariposa An unusual, rare reddish-brown climbing cane-type Epidendrum with a dangling spike. Flowers fairly large for an epidendrum at about an inch and a half across. Grows great outdoors with our cymbidiums. Temperature tolerant.	
<b>Epidendrum secundum x self</b>	1 gal	No pic
<b>Epidendrum secundum (species)</b> <b><i>TWO 1 GALLONS AVAILABLE</i></b>	1 gal 1 gal, Tropical Orchid Farm Note, colors are random unless noted, this is not necessarily pink	
<b>Epidendrum secundum (Purple)</b>	8-inch square Purple Flower, Andy's Orchids	
<b>Epidendrum Unknown</b> <b><i>TWO 1 GALLONS AVAILABLE</i></b>	(2) 1 gal	No pic
<b>Iwanagara 'Apple Blossom'</b> <b><i>TWO 6-INCH POTS AVAILABLE</i></b>	(2) 6-inch pot Fragrant Iwanagara, (abbreviated Iwan.) is the nothogenus for intergeneric hybrids between the four orchid genera Brassavola x Cattleya x Diacrium x Laelia. They are grown the same way as Cattleyas.	
<b>Laelia anceps</b>	<u>Bareroot:</u> Large with spike	No pic
<b>Laelia anceps var. veitchiana 'Fort Caroline' HCC/AOS Famous Blue</b> <b><i>THREE BARERROOT PIECES AVAILABLE</i></b>	<u>Bareroot:</u> 3 good size pieces	
<b>Laelia superbiens 'Alba'</b> <b>(syn Schomburgkia superbiens alba)</b> <b><i>THREE BARERROOT PIECES AVAILABLE</i></b>	<u>Bareroot:</u> 1 medium size 2 large size Flowers are pure crystalline-white with a splash of gold on the lip and are 6-8" across. The flower spikes start developing Nov-Dec and can be as long as 12 feet by the time the 8-15 flowers open in early spring.	
<b>Lc. Bonanza Queen 'Panamint' x Liptonic</b>	1 gal, spike	 xNo pic
<b>Lc. Elsie Stonehouse 'Leonard'</b>	6-inch pot, cross by J&R Orchids Picture is Lc. Stonehouse	

Plant Name	Comments	Picture
SVO 7269 Lc. (Floralia's Azul 'Sandra' AM/AOS x Ellery Tomasziewicz SVO)	4-inch pot	
Lc. Mari's Song HCC/AOS	6-inch pot	
Maxillaria tenuifolia (species) The Coconut Orchid	1 gal, B. Arciaga	
Myrmecophila tibicinis (syn Schomburgkia tibicinis)  <u>TWO 1 GALLONS AVAILABLE</u>	(2) 1 gal	
Oncidium Dorothy Wisnom 'Golden Gate' HCC/AOS	8-inch pot	
Oncidium maculatum	6-inch pot Medium sized, cool growing epiphyte, spotted blooms in the winter through early summer on an erect, to 100 cm long, many flowered, paniculate or racemose inflorescence arising on a mature pseudobulb with long lasting, glossy, fragrant flowers	
Oncidium Nonami Unknown	6-inch pot	No pic
Oncidium panamense (species)	8-inch pot	
Oncidium Pee Wei	4-inch pot	No pic
Oncidium sphacelatum  <u>TWO 1 GALLONS AVAILABLE and ONE 8-INCH</u>	8-inch 1 gal squat 1 gal	
Oncidium Unknown	4-inch pot	No pic

Plant Name	Comments	Picture
<b>Pleurothallis stricta (species)</b>  <b><i>TWO 2-INCH POTS AVAILABLE</i></b>	(2) 2-inch pot A militant member of this genus, with stiff upright dark green foliage up to 5", wiry spikes are rigidly straight, with well-spaced rank-and-file ½" flowers, blooms stand at attention with their elongated dorsals and fused lateral sepals which are crisp translucent cream, boldly vertically striped red, serrated arm-like petals guard the flower's flanks, blooms repeatedly.	
<b>Prosthechea 'Biflora'</b>	2 gal, Fred Clark, SVO	No pic
<b>Prosthechea/Encyclia Clamshell Orchid</b>	1 gal squat Picture is a sample; actual color is unknown	
<b>Sobralia macrantha "Angelica"</b>	3 gal	
<b>Zygonesia Cynosure 'Dove of Peace'</b>	2-inch pot The intergeneric cross Zygonesia is a hybrid between a Zygopetalum and Aganisia cyanea. Plants are fairly compact, with broad leaves. Flowers are borne many to a spike, and are white with faint pink on the lip or white with greenish lip. Each pseudobulb on a mature plant may produce multiple spikes. With this clone, a plus is the white variegation on the leaves. This makes a nice windowsill plant, but is also quite temperature-tolerant.	
<b>Vanda curvifolius (syn Ascocentrum curvifolium)</b>	3-inch pot Very bright conditions. The plants will adapt to full sun. Under very high light, upper leaf surfaces will show darkly pigmented spots and freckles. Water regularly and maintain high humidity and good air circulation. Feed weekly with balanced fertilizer during spring/summer; biweekly during fall/winter; high P formula ("bloom booster") every fourth feeding. Wooden slat baskets or mounts are best.
